THE BEST NATURAL APERIENT WATER

Dottled at the UJ HUNYADI Springs, Buda Pest, Hungary.

Considering the nature of the Hungarian Bitter Water Springs, it must obviously be desirable for the medical profession and the public to be assured authoritatively that the working of these Springs is carried on in a scientific manner, and not merely on commercial lines, and with this view the Uj Hunyadi Springs, from which "Apenta" Water is drawn, are placed under the absolute control of the Royal Hungarian Chemical Institute (Ministry of Agriculture), Buda Pest.

Their Demand for a St 50 Rate-A Conference at Youngstown,

Another conference has been arranged between the officials of the Amalgamated Association and the Mahoning valley manufacturers, says the Pittsburgh Leader. This conference will be held at Youngstown to-morrow, and from Indications will be the final one, the probabillty being that the manufacturers and workmen will get together and agree on the \$4 50 puddling rate, as demanded by the Amalgamated Association.

A manufacturer said; "The valley manufacturers are not willing to continue idle for a much longer period. The signing of the scale by the National Rolling Mill Company for the National tube works and its other concerns, the signing of Zug & Co., and many other irms places the valley manufacturers at a disadvantage. The ones who have signed will capture their trade if they do not resume operations, and this they cannot do without signing the scale. I think an amicable adjustment of the difficulties will be arranged Saturday at Youngstown, and that next week the thousands of workmen in the west and south will go to work. The conference will be between the Amalgamated officials and a committee from the labor bureau of the Merchants' Bar Iron Association. manufacturers are not willing to con-

### MANY BIDS SUBMITTED

Last evening a few of the Ohio county delegation to the state Republican convention at Parkersburg, returned to town, having left without attending last night's concluding session. Among these were Messrs. Thomas O'Brien, jr., and H. C. Richards. Mr. Richards was entusiastic in speaking of the two conventions, at Clarksburg and Parkersburg, respectively. The congressional convention at the former place which nominated Captain Dovener for a second term, was the most enthusiastic ever held in the First district. The state convention, says Mr. Richards, was attended by mobe delegates and spectators from all farts of the state than any in the history of the Republican party of West Virginia. The ticket placed in the field was considered on all sides to be strong without exception, and the feeling that victory will come to the party of protection, and honest money this fall was just as general. The Ohio county delegation naturally felt elated over the compliment paid a fellow citizen, Mr. Atkinson, who was unanimously the choice of the convention for governor. Their only disappointment was in the defeat of Mr. Hyer for auditor, but there is the consolation that a first class man succeeded, even if just as good a man failed. Last evenig the city council committee

on markets met in City Clerk Dannen-berg's office in the city building and opened bids for the repainting of the upbuilding. Bills to the amount of \$5 were recommended to council for payment, after which the committee considered the bids and recommended to council that the lowest, that of C. S. Cook, at \$139, be accepted. The bids were as follows:

Captain A. N. Pritchard, of Mannington, was in the city last night, en route home from the Parkersburg convention. Captain Pritchard says he feels much encouraged over the political outlook. The intelligent and patriotic people of the country, regardless of party, he thinks, are coming more and more to realize the crisis that faces the country in this campaign, and will unite to vote down the elements which have captured the Democratic organization. When the bonor and credit of the nation are threatened the sound sense and natriotism of the people may be depended upon to avert disaster. Valentine & Mitchell, \$197, extra for columns, 48; A. M.
